Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 10-13 and 18-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11/19/04.

Examiner asserts that claims 27 and 28 do not read on the elected species of Figures 8a-13, since there is no "compression member" included in this embodiment. Claims 27 and 28 are directed toward an embodiment in Figure 16.

Claim Objections

2. Claims 1-9 and 14-17 are objected to because of the following informalities:
- a. Claim 1: "introducing wires" in line 13 should be changed to "manipulating wires."
 - b. The preamble of claims 2-9 and 14-17 states "the mechanism of claim...", while the preamble of the independent claims states "the apparatus." The preamble should be consistent, so examiner suggests changing the preamble of either the independent claims or the dependent claims.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 - 9 and 14 - 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 1 contains the limitation "*operation section*" in line 12. This is not mentioned in the specification. Since claims 2-9 and 14-17 depend from claim 1, they are also rejected for this reason. Claim 14 requires the clips to abut one another, and Claim 16 requires the clip tightening rings to abut one another. This arrangement is not shown for the elected species.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah K Webb whose telephone number is (571) 272-4706. The examiner can normally be reached on Mon-Fri 8-4:30.
